

## Outrun

The SteelDrivers

Some things just need learning and they need learning early  
This world does not stop turning for the reckless in a hurry  
In the fever of a temper, Lord, he brought the whole thing down  
When he could not forgive her, boys, that's when he found out

That you can't outrun the Mississippi River in a Shelby GT Ford  
You can't outrun the angels, you can't outrun the Lord  
Well, you can't outrun a broken heart that gives in to a gun  
And you can't outrun the Grim Reaper once the deed is done

They found the car in Arkansas, stuck in a muddy bank  
About as far as a loose outlaw gets out of a single-tank  
Well, he musta took to walking, boys, he musta took to heel  
I hear them tracks just disappeared off in a cotton field

Well, you can't outrun the Mississippi River in a Shelby GT Ford  
You can't outrun the angels, you can't outrun the Lord  
And you can't outrun a broken heart that gives in to a gun  
And you can't outrun the Grim Reaper once the deed is done

They buried her so quietly, off in an unmarked grave  
They did not call the preacher as the family was disgraced  
Her Daddy thinks the fool's long gone 'cause he wasn't ever told  
That once when Mama came to pray, she found a pistol and a rose

'Cause you can't outrun the Mississippi River in a Shelby GT Ford  
You can't outrun the angels, you can't outrun the Lord  
And you can't outrun a broken heart that gives in to a gun  
And you can't outrun the Grim Reaper once the deed is done  
No, you can't outrun the Grim Reaper once the deed is done
