

Too Much

The SteelDrivers

Too much sugar, too much caffeine, too much violence on my TV
Too much commercials on the radio, too much traffic everywhere
I go
Too much hurry, everybody's in a rush
I don't worry, I don't worry about it too much

Too much confusion, too much booze, too much opinions, barrelin
g on the news
Too much destruction, too much war, too much power behind that
big white door
Too much mouth, can't seem to keep it shut
I don't worry, I don't worry about it too much

Mmm, anybody else might get in that mood and start a fight
But the way I see it, ya'll get along it'll be alright, yeah!

Too much computers, too much games, too much music it all sound
the same
Too much movie up on the screen, too much money doing down the
drain
Too much inflation, price keeps moving on up
I don't worry, I don't worry about it too much

Mmm, anybody else might get in that mood and start a fight
But the way I see it, ya'll get along it'll be alright, too muc
h!

Too much sickness, too much pain, too much sunshine blocking ou
t the rain
Too much poverty, too much wealth, too much insurance - auto, h
ome and health
Too much taxes, everybody get a cut
I don't worry, I don't worry about it too much
I don't worry, I don't worry about it too much
I don't worry, I don't worry about it too much
