

Secret Life

The Strange Familiar

I remember when you walked into my secret life
I remember holding hands
For the very first time
I remember when you kissed me and I
Was so scared
But somehow I knew
That you would always be there
And I remember everything

I dont know what life will bring tomorrow
But I want you there next to me
I dont know where I will be tomorrow
But I'll remember you and me
You and me

I remember dancing in your arms all night
I was staring into your eyes
In a circle of light
I remember you laugh and how we cried sometimes
I remember everything

I dont know what life will bring tomorrow
But I want you there next to me
I dont know where I will be tomorrow
But I'll remember you and me
You and me

The leaves will change
The world is rearranged
Why do we all have to grow up so fast?
People come and go
And walk in the night of your life
But the ones that you really treasure
Will be with you for all time

And I know all the odds are stacked against us
But I
Know the rules don't apply
To rely
I do know that you came to rescue me from my
Secret life

I dont know what life will bring tomorrow
But I want you there next to me
I don't know where I will be tomorrow
But I'll remember you and me
Oh
I'll remember you and me
You and me
