

Eskimo Ice

The Streets

Let the phone die, memory slide
Eskimo ice, Hennessy eye
Festival high, best friend's wife
Memory slide, best things in life
Let the phone die, memory slide
Eskimo ice, eskimo ice
Let the phone die, memory slide
Memory slide, best things in life

Stumble in the jungle, rumble into the motive
Clothes bashy and taut with no rational thought
Do it for the shouts, do not ever doubt
Either you are on the grout or you do it for the clout

Just came up and got flagrant
Left my girl, back to basics
Tight skirts and no laces
Plastic cups and no chasers
Looking for love in wrong places
Faced it just got up and said, "Laters"
I don't give up 'cause I'm patient
We stay up, fuck the neighbours, wakers
All the girls standing in a line for the toilet
See if she can sniff between the lines of enjoyment

You're all wankers and cunts
Jimmy Cooper in Quadrophenia
Is the movement you want in here ya know?
Rev the 'ped around the front garden
Oi, bell the hooter and just depart
Tell the goons that I'm not a part of that
Man, God has it backward God has seen it all
But if God had have dropped acid would God see people?
It's all fun till it's two, one by two till it gets loose
What should we all do?
I'm the shoobz, Scooby Doo

Avoid the jakes as we're peaking
Up for days, we ain't sleeping
I'm in a daze is increasing
Free my mind cut the demons
Do it all again next weekend, do it all again next weekend
I feel the baseline breathing
Feel my heart rate exceeding
Climax OD, in a wave so deep
Your energy I wanna keep
Yeah, I know you wanna

Let the phone die, memory slide
Eskimo ice, Hennessy eye
Festival high, best friend's wife
Memory slide, best things in life

Just came up and got flavours
Smoky bacon and Quavers
In that joke's way you say things
It's a poky rave but we're raving

With the Wave-Goat Gianno
Gonna save loads on Cinzano
'Cause you may go through a half hour
But the wave wants to go harder
Bitch, it's okay some people come for the scene
Which is okay, I just leave them on seen
I am the wave God
Come on, G, check me
Real G's sing real songs
Re-raise that bet
Drink like it's Galway
Ride the bike in the hall, G
Think about your content
Find the light for your stories
It's the wrong time for napping
Songs about trapping
Songs go on to garage, it's long to go garage

Let the phone die, memory slide
Eskimo ice, Hennessy eye
Festival high, best friend's wife
Memory slide, best things in life
Let the phone die, memory slide
Eskimo ice, Eskimo ice
Let the phone die, Hennessy eye
Eskimo ice, best things in life
