

Every night when the sun goes down  
I still dream of that school  
And that day when you held my hand  
We were breaking every rule  
You were my baby  
You really slay me  
I try to recreate you  
And I think that lately  
I'm going crazy  
'Cause I just can't get you out my  
Mind, mind, mind, mind, m-mind

I never felt so good  
Love never felt so right  
I'd go back if I could  
To 1999  
Think about it

Every night when the sun goes down  
I think of Alice and me  
Up all night in the other room  
Her parents watching TV  
She told me, "Baby  
This might sound crazy  
But I wanna try something new"  
And I thought, "What's this about?"  
Let her lips bless my mouth  
And you know it really drove me  
Wi- wi- wi- wi- wi- w-wild

I never felt so good  
Love never felt so right  
I'd go back if I could  
To 1999

Baby I loved you  
I know you'll figure it out  
Yeah, I'll really show you  
Show you what love is about  
'Cause I toss for you baby  
Down for you lately  
I just can't seem to forget  
But girl, when I hold you  
I'm gonna shout  
Shout  
Shout  
Shout

I never felt so good  
Love never felt so right  
I'd go back if I could  
To 1999  
I never felt so good  
Love never felt so right  
I'd go back if I could  
To 1999
