

Human Right

The Strike

Tell your story
Lean in close and
Show me what I need to know
You got something about the way you move
And now you're looking like you're alone
You've been working all your life
Cause it feels right. you never learn
I think you know you gotta let it go
You gotta let yourself taste the world you've been hurt

Do you wanna be my lover tonight?

Baby don't fight
I want to see you move tonight
Turn out the lights
Dancing is a human right
Baby don't fight
I want to see you move tonight
Turn out the lights
Dancing is a human right
Dancing is a human right
Dancing is a human right
Dancing is a human right

You've been trying to fight that sound
You can't fight the beat
And I can tell that you're here for help oh girl you're not foolin me
You've been bound and broken down
Told who you were meant to be
But when you break those chains and heal
Your pains yeah that's when you're finally free
Well, I'll be

Do you wanna be my lover tonight?

Baby don't fight
I want to see you move tonight
Turn out the lights
Dancing is a human right
Baby don't fight
I want to see you move tonight
Turn out the lights
Dancing is a human right
Dancing is a human right
Dancing is a human right
Dancing is a human right

Moving is the only way to heal your heartbreak
Moving is the only way to heal your soul
Moving is the only way to heal your heartbreak
Moving is the only way to heal your soul
Moving is the only way to heal your heartbreak
Moving is the only way
Moving is the only way to heal your soul!

Baby don't fight
I want to see you move tonight

Turn out the lights
Dancing is a human right
Baby don't fight
I want to see you move tonight
Turn out the lights
Dancing is a human right
Dancing is a human right
Dancing is a human right
Dancing is a human right

Dancing is human
Dancing is human
Dancing is human
Dancing is a human right
