

# Through the Silence

The Strike

I can still remember  
How you got the heads to turn  
You told your friends you'd never  
I told mine to watch and learn  
It was my finest performance  
I told you every story even better than rehearsed  
Now youth fades before us  
At times I don't know what to say  
But still a fire burns

Through the silence (I can hear the words you say  
I can hear the words you)  
Through the silence (I can hear the words you say  
I can hear the words you say)  
Through the silence (I can hear the words you say  
I can hear the words you)  
Through the silence (I can hear the words you say  
I can hear the words you say)  
(Through the silence)

We could steal away  
Tell ourselves it's still the same  
Buy ourselves a new life  
Any price to bend the time  
Do others have it better?  
I hate myself for asking, but  
The question still remains  
Now we're in this forever?  
So I don't need an answer cuz  
I love you still the same

Through the silence (I can hear the words you say  
I can hear the words you)  
Through the silence (I can hear the words you say  
I can hear the words you say)  
Through the silence (I can hear the words you say  
I can hear the words you)  
Through the silence (I can hear the words you say  
I can hear the words you say)  
Through the silence

At your end of the room  
Buried deep in your mind  
If you need me to reach you  
I'll be here anytime  
Let 'em take all the ups  
Let 'em take all the downs  
In our quietest moments  
There's a voice ringing out  
(I can hear the words you sing  
I can hear the words you  
I can hear the words you sing)

Through the silence (I can hear the words you say  
I can hear the words you) Through the silence  
Through the silence (I can hear the words you say  
I can hear the words you say) Oh, through the silence

Through the silence (I can hear the words you say  
I can hear the words you)  
Oh, through the silence (I can hear the words you say  
I can hear the words you say) Woo!

Through the silence (I can hear the words you say  
I can hear the words you)  
Through the silence (I can hear the words you say  
I can hear the words you say) I can hear the words you say  
Through the silence (I can hear the words you say  
I can hear the words you)  
I can hear the words you say (I can hear the words you say  
I can hear the words you say) Woo!  
Through the silence (I can hear the words you say  
I can hear the words you)  
Through the silence (I can hear the words you say  
I can hear the words you say)  
Let 'em take all the ups (I can hear the words you say  
I can hear the words you)  
Let 'em take all the downs (I can hear the words you say  
I can hear the words you say)  
(Through the silence)
