

## Run

## The Strumbellas

Oh, they say it's a magical place  
It's a magical place that they've found  
I say run run run run run run run run  
Oh, the buildings are so out of place  
So out of place in this town  
No love love love love love love love love

Oh, darling, can't you see?  
There's a cold wind that's blowing

And I'm gone, eh  
Come sing along with me  
And I'm gone, eh  
Come sing along with me

Oh, the people are lonely and brave  
Lonely and brave in my mind  
I say run run run run run run run run  
Oh, the neighbors are hiding away  
Hiding away in the night  
With a gun gun gun gun gun gun gun gun

Oh, darling, can't you see?  
There's a cold wind that's blowing

And I'm gone, eh  
Come sing along with me  
And I'm gone, eh  
Come sing along with me

Oh, darling, can't you see?  
There's a cold wind that's blowing

And I'm gone, eh  
Come sing along with me  
And I'm gone, eh  
Come sing along with me
