

# My Machine

The Struts

Start her up  
Here we go  
Engine hot  
Good to go  
She's so keen  
Turn the key  
Here to satisfy you

Turning heads  
Looking right  
Always ready to ignite  
Turn her on  
Spark her up  
She'll electrify you

Up a gear  
Road is clear  
So responsive when I steer  
There is nothing left to fear  
Hard to criticize you

I'm so happy you are mine  
Gonna buff you all the time  
Then your body's gonna shine  
I was born to love you

Oh! You'll never know, you'll never ever know  
'Cause when she breaks down  
No! It will be fine  
Cause love is blind

I'm gonna go for a ride  
I'm gonna get outside  
I'm gonna feel that grease  
Gonna slip inside  
Can you hear her scream  
She's my machine

I wanna make her new  
And paint her baby blue  
I'm gonna get inside  
Put the choke on you  
Can you hear her scream  
She's my machine

Everybody thinks I'm mad  
Brother, sister, mum and dad  
She's the best I've ever had  
She'll make me turn against them

Check the mirror  
Looking trim  
Fill her up  
Let's begin  
It's a joy  
It's a sin  
A weird infatuation

Oh! You'll never know, you'll never ever know  
'Cause when she breaks down  
No! It will be fine  
Cause love is blind

I'm gonna go for a ride  
I'm gonna get outside  
I'm gonna feel that grease  
Gonna slip inside  
Can you hear her scream  
She's my machine

I wanna make her new  
And paint her baby blue  
I'm gonna get inside  
Put the choke on you  
Can you hear her scream  
She's my machine

I'm gonna go for a ride  
I'm gonna get outside  
I'm gonna feel that grease  
Gonna slip inside  
Can you hear her scream  
She's my machine

I wanna make her new  
And paint her baby blue  
I'm gonna get inside  
Put the choke on you  
Can you hear her scream  
She's my machine

Can you hear her scream  
She's my machine

Can you hear her scream  
She's my machine
