

The Ol' Switcheroo

The Struts

Alright c'mon

Yes you're the one that I want but we need you to say it's alright

'Cause every time we hang out we all flirt and it ends up in a fight

You fall for my best friend the same time that I fall in love with you

He's always hitting on my girl

Why don't we do the Ol' Switcheroo?

You can't stop this feeling, oh we can't keep our hearts from beating 'cause...

I want what he's got and he wants what I've got

And I know what you want so let's trade what we've got

He'll be with her, I'll be with you and nobody's blue

How times have changed, there's nothing wrong

With the Ol' Switcheroo

It's true it might tempt fate every time that we go out on a date

Lips never tasted so great especially when they're shared with your mate

You can't stop this feeling, oh we can't keep our hearts from beating 'cause...

I want what he's got and he wants what I've got

And I know what you want so let's trade what we've got

He'll be with her, I'll be with you and nobody's blue

How times have changed, there's nothing wrong

With the Ol' Switcheroo

(Listen up, baby)

You can't stop this feeling, we can't keep our hearts from beating 'cause...

I want what he's got and he wants what I've got

And I know what you want so let's trade what we've got

I want what he's got and he wants what I've got

And I know what you want so let's trade what we've got

He'll be with her, I'll be with you and nobody's blue

How times have changed, there's nothing wrong

With the Ol' Switcheroo
