

You & I

The Struts

Where did you come from,
where did I go?
You and I,
walking the mile now,
need you to know
You and I
When I try to leave you,
you won't go
This is a love song nobody knows

You and I,
hate the way you make me feel
I need you
Hate the way it's only ever
You and I
Can't escape,
you always steal my shadow
Give it back,
give it back,
give it back!
You and I
You and I

Give me a reason,
you're twisting the knife
You and I
Said I believed you,
so what if I lied
You and I
And you know I need you,
but I don't know why
Just walk away now,
save the goodbye

You and I,
hate the way you make me feel
I need you
Hate the way it's only ever
You and I
Can't escape,
you always steal my shadow
Give it back,
give it back,
give it back!
You and I
You and I

You're talking to me now
When I'm the only one here
So who the hell am I talking to?
Tell me,
tell me,
tell me who are you

You and I,
hate the way you make me feel
I need you

Hate the way it's only ever
You and I
Can't escape,
you always steal my shadow
Give it back,
give it back,
give it back!
You and I
You and I
