Get Into It

The Strypes

Digital introductions
Fill you with fascination
She uses typed seduction
To lead the conversation
You think that she’s amazing
Her profile’s just the best
Love’s easy on the wrist
But too heavy for the chest
You hide behind
Confident lines
But you’re loosing your mind
She makes you go
Ahh…… get into it
Ahh…… get into it
Physical satisfaction
May well be on its way
But intimate interaction
Ain’t really your forte
You cant decide your next move
You’re fickle at your best
Your head can’t handle all this
Psychological stress
You keep away
From all the words that she
Wants you to say
She makes you go
Ahh…… get into it
Ahh…… get into it
She makes you go
Ahh…… get into it
Ahh…… get into it
