

Queen Of The Half Crown

The Strypes

She's ripped
She knocks me out in the first round
She towers over every time that I lay down
She's fucked up
She's got me bouncing till sundown
Two drinks in she's the queen of the half crown

But I love that little girl she's all mine
She got me breathing in a bag of sunshine
She make me hazy waiting on the next line
But it's all fine

She's the Queen of the half crown ahah
Queen of the half crown yeah yeah
Queen of the half crown ahah
Queen of the half crown yeah yeah

She flips, acrobatics in her brain
She's a laugh oh she's just so hard to contain
She's equipped, got the tools to maintain
She got that edge yeah the pedals to sustain

But I love that little girl she's all mine
She got me breathing in a bag of sunshine
She make me hazy waiting on the next line
But it's all fine

She's the queen of the half crown aha
She's the queen of the half crown yeah yeah
She's the queen of the half crown ahah
She's the queen of the half crown yeah yeah

She's ripped
She knocks me out in the first round
She towers over every time that I lay down
She's fucked up
She's got me bouncing till sundown
Two drinks in she's the queen of the half crown

But I love that little girl she's all mine
She got me breathing in a bag of sunshine
