Three Streets And A Village Green

The Strypes

Check me and check my hype
My time is overdue
Life's just a sleepless night
Of getting into you
Your hands are outta sight
So get em out of view
Oh I'd love to get a light
And spark it up in you

Ahhhhhhh
Ahhhhhhh

Ahhhhhh
Ahhhhhh

Cos I'm just a simple boy on the scene
Trying to avoid the Ego machine
Chewing gum tastes like girls to me
And life's three streets and a village green

Check me and check my fame
I'm the one you need to know
Mop top with a hand of God
Baby call me Diego
She thinks I should love again
Cos love'll make me grow
But love's just a synonym
For messing with the show

Ahhhhhh
Ahhhhhh

Ahhhhhh
Ahhhhhh

Cos I'm just a simple boy on the scene
Trying to avoid the Ego machine
Chewing gum tastes like girls to me
And life's three streets and a village green

Your living life to excess dear
Always in your Sunday best gear
Are you enjoying success dear?
Actually I'm a bloody mess dear

Cos I'm just a simple boy on the scene
Trying to avoid the Ego machine
Chewing gum tastes like girls to me
And life's three streets and a village green
