

I Have You, You Have Me

The Stylistics

We may not have the things we thought we would
But we have learned to do without
Good times or bad
I gave you what I had
'Cause sharing is what love is all about

Chorus

I have you, you have me
And we'll face to world from day-to-day together
I have you, you have me
And everyday that passes
Are saying our chances are getting better

Our days are filled with hope and sacrifice
It isn't easy on our own
But day by day we're making our way
Living out the greatest love we've known

Chorus

I have you, you have me
And we'll face to world from day-to-day together
I have you, you have me
And everyday that passes
Are saying that our chances are getting better

We have a love we can treasure
?
There is no way we can measure
How can you measure wonderful things
We can't be sure of what tomorrow brings
We may not find our pot of gold
Poor as we are
We're richer by heart
For having all the love our hearts can hold

Chorus X2

I have you, you have me
And we'll face to world from day-to-day together
I have you, you have me
And everyday that passes
Are saying that our chances are getting better

I have you, you have me
And we'll face to world from day-to-day together
I have you...
