

I Won't Give You Up

The Stylistics

I won't give you up
'Cause it takes much too long
Just to make up should we break up
That would be wrong

I won't give you up
If you say that we're through
If you leave me I'll go with you
That's what I'll do

In your eyes there's a spark
That says, I love you and it's quite true
Stay away
You may try but I won't give up on you

I won't give you up
For there's only one
There's a halo in your make-up
Bright as the sun

I won't give you up
'Cause my dream has come true
I'll be with you
Always loving you as I do

In your eyes there's a spark
That says, I love you and it's quite true
Stay away
You may try but I won't give up on you

Won't give up on you
Won't give up on you

In your eyes there's a spark
That says, I love you and it's quite true
Stay away
You may try but I won't give up on you

Won't give up on you
Won't give up on you
Won't give up on you
Won't give up on you
