

# It Started Out

The Stylistics

Woah, mhmm, mhmm  
Mmhm

It started out  
As one night love affair that's how it started out  
But some how we got turn around  
Now we've ended up like how we started out  
Mmm  
It started out  
As just one night thing that's how it started out  
?  
Now we both in love

When we met  
I never thought that we ?  
? it happened so certainly

It started out (Started out)  
With one thing on my mind that's how it started out  
And before I knew it came about  
We had ended up like how we started out  
It started out  
Like any mystery that's how it started out  
But at the end it change around  
It ended happily

Didn't you ?  
And loving you never entered my mind (My Mind)  
It started out (Started out)  
(Turned around, turned around)

--Instrumental Break--

Didn't you ?  
And loving you never entered my mind (My Mind)  
It started out (Started out)
