The Stylistics

Special, to me  
You're special, girl, can't you see?  
Special to me  
You're so special, girl

Hey girl, I've been loving you  
For such a long, long time  
There is one thing we both know it's true  
We are always on each other's minds  
Girl, I just can't help myself, no matter what I do, no

All I wanna do is lay next to you  
So I can love you through and through

Special, to me

Hey girl I really like your style  
I think I'll be here, more while  
Your gorgeous smile, your personality  
Makes me know that you're for me  
Girl, no matter where we are  
You make me feel just like a star  
I wanna hold you girl and squeeze you tight  
And let you know that everything's alright
