

The Girl In Yellow

The Stylistics

I went to the barbershop
And saw the girl in yellow
You know she really stole my heart
She was the girl in yellow
And I see her walking down the street
My poor heart seems to skip a beat
She's the girl that stole the show
She's the one I just got to know

There's no place I'd rather be
Than with the girl in yellow
I know her love was meant for me
Cause she's the girl in yellow

She's got me going out of my mind
Cause she's the girl in yellow
I think it's just a matter of time
For the girl in yellow
I wish that I could hold her hand
And let her know I want to be her man
I want her
Though she don't even know
I love her
And it just got to show

There's no place I'd rather be
Than with the girl in yellow
I know her love was meant for me
Cause she's the girl in yellow

Talking about the girl, talking about the girl in yellow
Talking about the girl, talking about the girl in yellow

I wish that I could hold her hand
And let her know I want to be her man
I want her
And she don't even know
I love her
And it just got to show

There's no place I'd rather be
Than with the girl in yellow
I know her love was meant for me
Cause she's the girl in yellow

Talking about the girl, talking about the girl in yellow
Talking about the girl, talking about the girl in yellow
