

# We Just Can't Help It

The Stylistics

We just can't help it  
We just can't help it  
We just can't help it

Girl you turn me on  
And I can see you want me in your arms

We just can't help it  
We just can't help it  
We just can't help it

Girl, how hard we try  
To kill the love that keeps us both alive  
They say our spirit's gone  
Cause we both belong to somebody else  
Now we don't mean to live on the run, to hurt anyone  
But we can't help ourselves

We just can't help it  
We just can't help it  
We just can't help it

Girl, each time we touch  
We reach for love  
And then we love too much

We just can't help it, girl  
We just can't help it, girl

They say our spirit's gone  
Cause we both belong to somebody else  
Now we don't mean to live on the run, to hurt anyone  
But we can't help ourselves  
No-o-o baby

We just can't help it  
We just can't help it  
We just can't help it, girl  
We just can't help it, girl
