

City Pavement

The Subways

When i walk on the city pavement
It's like a trigger going off in my mind
These times are a lonely saviour
That's all i need to find

Sittin on a city pavement

Light colours on a streetlight sidewalk
Dog fight goin on in my mind
These times are a lonely saviour
That's all i need to find

Sittin on a city pavement

You don't know me
But you think you do
You don't know me
But you think you do

Sittin on a city pavement
