

Stone Drill

The Sugarcubes

Einar

I went to my job today
I couldn't find my job today
my job was long gone
my job - where is my job?
my job is - my job is
my job is long gone
I went to my job today
I couldn't find my job
I couldn't find my job
I went to my job today

My job was long, long, long, long, long, long
long, long, long, long, long, long, long, gone

But I went to job today
I couldn't find my job today
I need my job today
I need my job today
I want to go for work and pray
I need my job today
I need my job, job, job, job, job, job
I need my job, job
I need my job
I need my job today
I need to get it today
