

## The Bee

The Sugarcubes

Who is it? Who'll get the sting?  
Who'll get the stripes? Black and yellow  
A dangerous creature, chattering wings  
Flashing antennae, who is it?

It buzzes fine, the bee  
Buzzes fine, stings deep

I play a frightened little game  
I eject myself at scary speed  
In front of cars and I go yeah

She is it, she's got the sting  
She's dangerous, she stings  
He gets stung, he is out  
She gets the honey, she is it

She flies great, the bee  
Flies great, stings deep

The cars freeze from fright  
When they see my beautiful body and tongue  
Then I speed away

But no one catches me  
I'm the fastest bee in town

Oh, hot bee, Queen of heaven  
With glossy trunk buzz to me  
I want to be stung, I want to be out  
Here is the honey, you're it

It stings deep, the bee  
It stings deep, oh oh  
It stings deep, kills fast
