

## Potter's Song

## The Suicide Machines

It's getting so hard to survive here  
An affordable life unattainable every year  
You think by now that we would know better  
Maybe learn from our history  
Let's take down all the bastards in power  
Or we will be doomed to repeat

Take back, rethink, rebuild, defend

Let's all sit back and watch economy collapse  
Now ask yourself, who's the real terrorists?  
I'm a walking middle finger with a heart that's a bomb  
And it's exploding inside my chest  
Fuck their laws, fuck their rules, fuck authority  
I will always be a dissident

If we don't stand for something  
We will all fall for anything

Take back, rethink, rebuild  
Defend, defend  
Take back, rethink, rebuild  
Defend  
Take back, rethink, rebuild, defend

Take it back  
Take it back  
Take it back
