

Deeper

The Summer Obsession

Take my shoulder to cry
This is deeper
And we're all family here
Take my hand and don't ask why
There's a spirit and it's passing by
Don't you ever worry
Don't you ever worry
Don't you ever worry
Don't you ever worry
I'll tell you a story
Of a danger
That we can't forget
It starts with an F
It gets stranger
And it ends in use
And the same old thing
Is haunting you forever

When you change the frame
The next scene gets better
Take my shoulder to cry
It gets deeper
It gets deeper
(Whoa)
Don't you every worry here
All there is to fear is fear
Don't you ever worry here
All there is to fear is fear
Dont you ever worry
This is deeper
This is family
This is deeper
This is family
This is deeper
(Dont you ever worry here all there is to fear is fear)
This is family
(Dont you ever worry here all there is to fear is fear)
(Dont you ever worry here all there is to fear is fear)
