

Never Let You Down

The Summer Obsession

We had the best time of our lives
Being the bad guys singing along
I heard your reasons for leaving
I won't believe it until you're gone
Go ahead take it away
But if you wanna stay
I would never let you down

Remember the angels you slept with
Only the best sex would turn you on
I heard your demons were creeping
I gotta feeling you ain't alone
Go ahead take it away
But if you wanna stay
I would never let you down
Well maybe you feel like giving up
And maybe you just had too much of this town
I would never let you down
