

# Dizzy

The Summer Set

It happens little by little  
Then everything at once  
One minute you're running on empty  
The next you're loaded like a gun  
'Cause when the heart is being careful  
The brain is waiting for the barrel to blow  
One more round, my head is spinning  
And my jaw is on the floor  
Bounce back like Oliver Twist  
Asking if I could have some more  
I know it didn't take much  
I tripped and fell deep in love  
And I want everybody to know

If I'm out of my mind  
I don't mind, baby I can't quit  
No, I ain't satisfied till I get that hit  
Your lips are like a sip of cherry cola, so fizzy  
Every time you kiss me  
I get so high that I get dizzy

And suddenly it's like I'm falling  
But upward toward the stars  
Among the satellites and comets  
Higher than the moon and mars  
Faster than a rocket  
Gravity can't stop it  
I'm a space man waving at the world below  
If there's a god tell her it's crazy  
Looking at heaven on earth  
Somewhere between pushing up daisies  
And making angels in the dirt  
I don't wanna come back down  
But when my feet touch holy ground  
You make me feel like I'm coming home

If I'm out of my mind  
I don't mind, baby I can't quit  
No, I ain't satisfied till I get that hit  
Your lips are like a sip of cherry cola, so fizzy  
Every time you kiss me  
I get so high I'm out of my mind  
I don't mind, baby I can't quit  
No, I ain't satisfied till I get that hit  
My heart beat got me buzzing like a bee, so busy  
Every time you kiss me  
I get so high that I get dizzy

Oh, oh, oh  
If I'm out of my mind  
I don't mind, baby I can't quit  
No, I ain't satisfied till I get that hit  
Your lips are like a sip of cherry cola, so fizzy  
Every time you kiss me  
I get so high I'm out of my mind  
I don't mind, baby I can't quit  
No, I ain't satisfied till I get that hit

My heart beat got me buzzing like a bee, so busy  
Every time you kiss me  
I get so high that I get dizzy  
I get so high that I get dizzy

Turn on the lights party is over  
Black and white fade to crimson and clover  
Open my eyes and out of the darkness  
I can see the color of everything  
Turn on the lights party is over  
Black and white fade to crimson and clover  
Open my eyes and out of the darkness  
I can see the color of everything
