

# Street Lightning

The Summer Set

Wake up the coveted car  
Can't keep my eyes on the road  
I wanna be where you are  
And I don't wanna be alone

Strike anywhere on the match  
Another mile to go  
But if it ain't gonna last  
Then baby I don't wanna know

Breakdown, how could I regret  
That even on the way down  
I would take my chances on

Slow dancing in your street lightning  
Romancing what might've been  
Like kerosene on my skin  
Yeah I can't let go, I can't let go  
Of your street lightning  
Swept under your thunder spin  
My engine is caving in  
And I can't let go, I can't let go

Too many bottles of wine  
Can't get my ducks in a row  
Who doesn't wanna be high  
When everybody's getting low?

Nicholson Room, On The Rox  
Another memory to blow  
But if the big hand on the clock is ticking  
I could take you home

Breakdown, how could I forget  
That you're the best game in town  
And I would take my chances on

Slow dancing in your street lightning  
Romancing what might've been  
Like kerosene on my skin  
Yeah I can't let go, I can't let go  
Of your street lightning  
Swept under your thunder spin  
My engine is caving in  
And I can't let go, I can't let go

I can't let go, I can't let go  
I can't let go, I can't let go

Like I'm walking on water  
Got my feet off the ground  
Yeah I run and I run and I can't stop now

You're street lightning  
Romancing what might have been  
Like kerosene on my skin  
And I can't let go, I can't let go

Of your street lightning  
Swept under your thunder spin  
I see you in everything  
And I can't let go, I can't let go
