

## Medication

### The Superjesus

Well pictures move from left to right, I'll stand where I can see

But ignorance is golden in the end

And now it's quite intangible this life in front of me

But ignorance is golden in the end, my friend

Got the fire got the reaction

Don't want to treat you like a criminal

But now I'm frozen, it's part of the game

Medication gonna heal me when I'm frozen

I'm feeling the pain

Medication gonna heal my wounded veins

Well there's nothing I can say to you that's working in my mind

I liked it so much better yesterday

When every second undertone in use is so unkind

I liked it so much better yesterday

Got the fire got the reaction

Don't want to treat you like a criminal

But now I'm frozen, it's part of the game

Medication gonna heal me when I'm frozen

I'm feeling the pain

Medication gonna heal my wounded veins

I'm gonna take it in my own time

Seems like forever we've been falling outta line

I'm gonna take it in my own time...

Well pictures move from left to right, I'll stand where I can see

But ignorance is golden in the end

And now it's quite intangible this life in front of me

But ignorance is golden in the end, my friend

Don't want to treat you like a criminal

But now I'm frozen...
