## The Supermen Lovers

Alright

Call my name  
Just call my name  
Call my name (alright)  
Just call my name

When you're down on the hood  
I am eating the road  
When you're necked at home  
I was smoking your joint

When you open your mouth  
You're just freaking me out  
Go and shop with your friends  
When I'm doing your sister

Call my name  
Just call my name (they do that?)  
Call my name (alright)  
Just call my name

And little mam ate a gumchew  
Your aunt's in a chilling  
At the end of the day  
When I smoke all the weed

You can't resort to me  
And I will run down the street  
You can't chew me to twits  
And then throw me away

Started as easy  
You say today  
And I'm love with you  
When you're far away

And when you are  
Too close to me  
I've got nothing to say  
You can choke up the way

Call my name  
Just call my name (they do that?)  
Call my name (alright)  
Just call my name

When it's falling time  
You're wasting my time  
Forgot your purse, eh?  
What are you gonna say?

When you're falling asleep  
I just click on new porn  
Oi, fancy a quickie?  
Have a debt with your mom

Call my name  
Just call my name  
Call my name (alright)  
Just call my name

Call my name  
Just call my name  
Call my name  
Just call my name

And little mam ate a gumchew
