

(You Can) Depend On Me

The Supremes

Though you say we're through
I'll always love you and you can depend on me
Though someone that you've met has made you forget
Honey, you know you can count on me

When I wish, I wish you success and loads, loads of happiness
But baby, I gotta confess I'll be lonely
If you ever, if you ever need a friend I'll be yours until the
end

And you can depend on me

I wish you success and loads of happiness
But darling, I gotta confess I'm gonna be lonely
Oh, if you ever, if you ever need a friend I'll be right by you
r side till the end
And you can depend on me
