

## You Need Me

The Supremes

When day is done and you come home  
You shouldn't spend your nights alone  
That's when you need me baby

To always know that someone cares  
And love like mine should be shared  
We'll see you'll need me baby

We'll build up dreams and memories  
And maybe raise a family  
So give your love to one who yearns  
I'll promise true love in return  
How can you be so blind  
Can't you see you need me

If you should disappoint me  
And refuse my love  
I know my heart would die  
'Cause you are my reason for living  
My heart and soul I'm giving  
Darling hear my cry  
You need me

To me my love's sacred thrill  
It's all for you and you alone  
You see you need me baby  
Though you may find another who  
Might take your love and be untrue  
You see you need me baby

Have you experienced in the past  
One sided love affairs don't last  
No need to take a chance at all  
When I'm just waiting for your call

How can you be so blind  
Can't you see you need me  
You need me, you need me
