

# Always Been You

The Sweepings

What if we started over and I could have seen  
What was lying uncovered and hiding underneath

It tears me a part knowing how,  
I'm only just now finding out

It's always been you  
It's always been you  
Every word is true  
It's always been you

Are you anywhere out wondering what could be  
Or staring blank at the ceiling just like me

It tears me a part knowing how,  
I'm only just now finding out

It's always been you  
It's always been you  
Every word is true  
It's always been you

Is it too late to make you mine  
Tell me there's still time

It's always been you  
It's always been you  
Every word is true  
It'll always be you
