

Bleed Me White

The Sweepings

There's a light ahead
Day is coming soon
The highest of the highs
Rise and find us soon

For the down, and the low
There's a day coming, day coming

Bleed me white
Drain what little hope you can
You can try
But I'm never giving in
Bleed me white
Find it's harder than it's been
This time

To freedom I run
Day is coming soon
Once bound now is gone
Here life been promised true

For the proud, and known
There's a day coming, day coming

Bleed me white
Drain what little hope you can
You can try
But I'm never giving in
Bleed me white
Find it's harder than it's been
Harder than it's been

All we longed for right before us
Dawn has broken, so do your best to

Bleed me white
Drain what little hope you can
You can try
But I'm never giving in
Bleed me white
Find it's harder than it's been
This time
This time
