

# Deep & Wild

The Sweepings

This old road  
Less traveled  
Leads through the open fields  
The breeze blows  
Where we go  
All of the world stands still

There is nothin'  
And no one  
That could be in our way  
It's just me  
And it's you  
In this moment we can save

Deep and wild  
You and I  
Deep and wild  
Full of life  
Here we are, here we are now  
Here we are, here we are  
Headed for the deep  
Headed for the deep and wild

Our footsteps  
Right then left  
Strong through the fallen leaves  
What's seen in  
The distance  
A challenge we will receive

There is nothing  
And no one  
That could be in our way  
It's just me  
And it's you  
In this moment we can save

Deep and wild  
You and I  
Deep and wild  
Full of life  
Here we are, here we are now  
Here we are, here we are  
Headed for the deep  
Headed for the deep and wild  
The deep and wild

Feel it floodin' in  
The sound, the space, the wonder of where we've been  
Feel it floodin' in  
One more chance to chase horizons

Deep and wild  
You and I  
Deep and wild  
Full of life  
Here we are, here we are now

Here we are, here we are

Deep and wild

You and I

Deep and wild

Full of life

Here we are, here we are now

Here we are, here we are

Headed for the deep

Headed for the deep and wild
