Hush (What A Mess)

The Sweeplings

Bite my tongue, keep it in
Let my thoughts, let them stay hidden
If I could speak, just maybe
Would you hear, would you even blink?

What a mess we've made, made
What a mess we've made
What a mess we've made, made
What a mess

I may as well hush, feed the quiet
I may as well hush, just be silent
I'm swallowing every word (hush) ever heard (hush)
May as well hush

Keep it up, keep it shut
Don't you push, don't you push my luck
I can't breathe, if you please
Let me go, let me be released

What a mess we've made, made
What a mess we've made
What a mess we've made, made
What a mess

I may as well hush, feed the quiet
I may as well hush, just be silent
I'm swallowing every word ever heard
May as well hush

I may as well hush, feed the quiet
I may as well hush, just be silent, oh
I'm swallowing every word ever heard
May as well hush

I may as well hush

Take your turn, oh
Do your worst
Try your best, try to make me hurt
What a mess we've made, made
What a mess
What a mess we've made
What a mess
