

# I Won't Go

## The Sweepings

A year ago, I saw a hope  
A way that you would come  
But a year in time has passed us by  
And with it the chances gone  
A month ago I felt it so  
A passion fit to fight  
But a month of days just drift away  
And the feeling fades from sight

Till you are close  
I won't let go  
Till you are close  
I won't go  
I won't go

A day ago like blinding light  
The embers flame to life  
But a day or more has come and gone  
And left you far behind

Till you are close  
I won't let go  
Till you are close  
I won't go  
I won't go

I'm here for you  
So near for you  
I won't go

An hour ago it all was still  
A vision came to mind  
The hour revealed it's final frame  
And leads me to goodbye

Till you are close  
I won't let go  
Till you are close  
I won't go  
I won't go
