

No Mercy

The Sweepings

In the veil down below
Follow me wherever I go
Honey how you're haunting me with no mercy, mercy
All down and low
Find no one will ever come close
Honey how you're haunting me with no mercy
Mercy

Underneath the pale sky setting
Crawling up the walls a shadow
Bends up from the ground
Never makes a sound mmm
Ages I've been back or was I
Ever really here lost in a soul that's all alone
Praying for the day to come

In the veil down below
Follow me wherever I go
Honey how you're haunting me with no mercy, mercy
All down and low
Find no one will ever come close
Honey how you're haunting me with no mercy
Mercy

Waited for the heat of one who'd
Warm this heart that's still
And pull me
From where I have gone
Leave the night out on it's own

In the veil down below
Follow me wherever I go
Honey how you're haunting me with no mercy, mercy
All down and low
Find no one will ever come close
Honey how you're haunting me with no mercy
Mercy

Took me to the edge so I wouldn't forget ya
Wouldn't let me go on
Told me that you need me so I couldn't be without ya
Go on go on oh

In the veil down below
Follow me wherever I go
Honey how you're haunting me with no mercy, mercy
All down and low
Find no one will ever come close
Honey how you're haunting me with no mercy
Mercy
