

Please Don't

The Sweepings

I think I'm way past numb
Every touch now dull
I don't feel anything, I don't feel anything

They say just let it out
No shame in breaking down
I don't feel anything, I don't feel anything

There's nothing there worth finding
And if it is it's hiding...

What if I do?
What if I don't?
Stay in this silence
What if I will?
What if I won't?
Come out of the quiet
I don't know why
But something inside
Says please, please don't...

Oh, I have been so strong
But it's been way too long
Since I've felt anything, since I've felt anything

I want to hold this weight
I want to just escape
I don't feel anything, I don't feel anything

I know I should be living
But my heart won't just give in...

What if I do?
What if I don't?
Stay in this silence
What if I will?
What if I won't?
Come out of the quiet
I don't know why
But something inside
Says please, please...

What if I do?
What if I don't?
Stay in this silence
What if I will?
What if I won't?
Come out of the quiet
I don't know why
But something inside
Says please, please don't...
