

Shadows Still

The Sweepings

Years ago
We would swear
We had it all
But we were just shadows still
We were just shadows still
Sound and light
The shades we bare
All the while
We were just shadows still
We were just shadows still

We thought we knew it all
We thought we knew it all
In the brilliance of life
We thought we knew

Curtains loose
Stretch our shape
Finding more
We were just shadows still
We were just shadows still
Slow but sure
The warm cascade
Space we fill
We were just shadows still
We were just shadows still

We thought we knew it all
We thought we knew it all
In the brilliance of life
We thought we knew

We were just shadows
We were just shadows
We were just shadows
We were just shadows
We were just shadows still
We were just shadows still

We thought we knew it all
We thought we knew it all
In the brilliance of life
We thought we knew
