

# Shipwrecks

## The Sweepings

Long nights, the howling wind can blow  
It's alright, I'll be there with you to fight  
You won't go it alone

Dark skies, the waves are crashing down  
Just hold tight, all this chaos brings new life  
Some storms they only come to clear the way

We're the salvaged from the fray  
Here together finding we're all made of shipwrecks  
All made out of shipwrecks  
From the damage see what waits  
Here together finding we're all made of shipwrecks  
All made out of shipwrecks

Sunset, may seem the day is done but not yet  
There's another light coming, to guide and lead us on  
To guide and lead us on our way

We're the salvaged from the fray  
Here together finding we're all made of shipwrecks  
All made out of shipwrecks  
From the damage see what waits  
Here together finding we're all made of shipwrecks  
All made out of shipwrecks

The waters only rise to lead us onward

We're the salvaged from the fray  
Here together finding we're all made of shipwrecks  
All made out of shipwrecks  
From the damage see what waits  
Here together finding we're all made of shipwrecks  
All made out of shipwrecks  
We're all made of shipwrecks  
All made out of shipwrecks
