

## Snow May Be Falling

### The Sweepings

There's a chill in the air, and a feeling that brings you near  
Snow may be falling and all I can think of is you  
All wrapped up in your arms, you're the fire that keep me warm  
My favorite reason for the change in the season is you

You and I with nowhere to go  
It's cold outside, but you'd never know  
Sleigh bells ringing just for our ears

Every flake on the ground, every footprint that we set down  
Passing each house hearing carolers singing their tune  
There's no better place that I'd rather be than right here with  
you

You and I with nowhere to go  
It's cold outside, but you'd never know  
Sleigh bells ringing just for our ears

All that I wished for is here and now  
Holding you is what this time of year is all about

You and I with nowhere to go  
You and I with nowhere to go  
It's cold outside, but you'd never know  
Sleigh bells ringing just for our ears  
I got everything I want this year
