

# We're Alive

## The Sweepings

Oh, thy love runs deep  
Thick as thieves, who are we?  
Oh-wee, boundless moon  
Carry on where we're from

With the wind our voices ring  
Tingle in between the breeze

And lo  
Leave the past  
Where it lies  
Lift your head  
Fix your eyes  
And lo  
Only in time  
We will find  
We're alive

Oh, now never done  
To the end, overcome  
Flow, I breathe in bold  
Every stare, stories told

In the air our echoes heard  
Flowing far from where we were

And lo  
Leave the past  
Where it lies  
Lift your head  
Fix your eyes  
And lo  
Only in time  
We will find  
We're alive

Breathe in the future, the future  
To conquer our fortune  
Bring close the moment, the moments out  
Gathered and broken

And lo  
Leave the past  
Where it lies  
Lift your head  
Fix your eyes  
And lo  
Only in time  
We will find  
We're alive
