

Stars

The Swellers

I've got these chords
I can't play anymore
Cause they're all that I've known for so long
Now they ruin all the songs

This one's for you
Yeah, this one's for you
The old songs must be hard to believe
I've ruined everything

You'll be someone I
I can learn from
And over your voice
I'm screaming
"Love, it takes time, it takes time"
I wish I could take my time and your worries away
I'll take my time and your worries away

I'll be okay
Cause I've got the stars
And you said you've been free for some time
And you prove it with the scars
This one's for you
Yeah, this one's for you
If I'm lost before you hear all of this...

You'll be someone I
I can learn from
And over your voice
I'm screaming
"Love, it takes time, it takes time"
I wish I could take my time and your worries away
I'll take my time and your worries away

This one's for you...
This one's for you!

I'll be okay
Cause I've got the stars
