

Come As You Are (Superstar)

The System

I can't wait 'cause we've got a date
Tonight we're making a scene
She's an uptown girl, I'm a downtown boy
With plenty of dreams (plenty of dreams)
Her friends all say she's made a mistake
She tells them I'll take my chances
She's knows that I can't dance
But I can surely sing a song of romance
Some people need a world of, of gold and pearls
My wealth is all in passion
And maybe to some girls these clothes I wear
Just maybe out of fashion
No I'm not debonaire like Fred Astaire
But my baby don't care
She says just come as you are baby

Just come as you are, baby
You're my superstar
Made just for these arms
I want you just the way you are

It's just my fate to have expensive tastes
And not a penny to spare
I just don't know why she wants me
'Cause she's much more than my share
She says take a look inside
And you'll realize a book's more than the cover
And so the saying goes, you never know
Just what you will discover
What pages you will turn until you learn love is all that matters

Just come as you are, baby
You're my superstar
Made just for these arms
I want you just the way you are

Just come as you are, baby
You're my superstar
Made just for these arms
I want you just the way you are

Ah babe...

Some people need a world of, of gold and pearls
My wealth is all in passion
And maybe to some girls these clothes I wear
Just maybe out of fashion
No I'm not debonaire like Fred Astaire
But my baby don't care

Just come as you are, baby
You're my superstar
Made just for these arms
I want you just the way you are

Just come as you are, baby
You're my superstar

Made just for these arms
I want you just the way you are
