

# Deja Vu

## The System

Woo  
I'm having a deja vu  
Deja vu  
Of me and you

Why does it seem that we've been here  
In my mind  
Not like the love that we're making  
For the first time  
The moment I touched you, my heart knew  
I'd been here before  
I had a premonition  
Now it's comin' on strong

(Deja vu) You stepped right into my life  
With fantasy's delight (Me and you)  
You keep blowin' my mind  
You make dreams come true

(Deja vu) I knew this had to be right  
Here with you tonight (Me and you)  
Our two souls reunite  
In passion, deja vu

Rewind my mind to the highlights  
Of our romance  
Replay my memory once again  
Oh, baby  
Yours are the lips that raptured me  
Changed my destiny

(Deja vu) You stepped right into my life  
To fantasy's delight (Me and you)  
It keeps blowin' my mind  
You make dreams come true

(Deja vu) I knew this had to be right  
Here with you tonight (Deja vu)

My [?]  
Premonition of our love  
You swept my heart away  
In a rapture dreams had made  
But I can't compare it to  
The dream I found in you  
My deja vu

(Deja vu) You stepped right into my life  
To fantasy's delight (Me and you)  
It keeps blowin' my mind  
You make dreams come true

(Deja vu) I knew this had to be right  
Here with you tonight (Me and you)  
Our two souls reunite  
Passion, deja vu

(Deja vu) You stepped right into my life  
To fantasy's delight (Deja vu, yeah)  
It keeps blowin' my mind

(Deja vu) I knew this would be right  
Here with you tonight  
You make dreams come true (True)

(Deja vu) You stepped right into my life (Deja vu)  
To fantasy's delight (Me and you)  
It keeps blowin' my mind  
You make dreams come true

(Deja vu) I knew this would be right  
Here with you tonight (Deja vu, yeah)  
Our two souls reunite  
Deja vu (deja vu)
