

Grip

The System

You say, hold on
For a minute
Every time I'm with you
It turns into an hour

O-oh
I can't pretend it
The power of your lovin'
Holds me like-

I want you time
And time again
I say I'm gonna leave
But your force of nature wins

Like the flames
In a fire
Every time you touch me
You burn me with desire

Caught in the grip of your love
Under your spell I can't get of
(You got a good grip) What's a guy to do?
When his heart's been gripped by you

Caught in the grip of your love
Under your spell I can't get of
(Girl, you got a good grip) What am I supposed to do?
I'm caught in a grip of you

Into quicksand
I am sinking
The more that I resist you
The deeper I get in

Oh
Too late to fight
My heart is superman
But your love is kryptonite

The web
Of your love
It's really got a hold on me
My hands are tied

Domination
Of my mind
It's a sticky situation
Every single night

Don't misunderstand me, girl
The love that you make
Brings out my whip appeal

I'll make my admission here
You make it so easy
'Cause love is so real

I'm caught in the grip of your love
Under your spell I can't get of
(You got a good grip) What's a guy to do?
When his heart's been gripped by you

Caught in the grip of your love
Under your spell I can't get of
(Girl, you got a good grip) What am I supposed to do?
I'm caught in a grip of you

Don't misunderstand me, girl (Don't misunderstand me)
The love that you make
Brings out my whip appeal

Love without condition, girl
You make it so easy
'Cause love is so real

I'm caught in the grip of your love
Under your spell I can't get of
(You got a good grip) What's a guy to do?
When he's caught in a grip by you

Caught in the grip of your love
Under your spell I can't get of
(Girl, you got a good grip) What am I supposed to do?
I'm caught in a grip of you

Caught in the grip of your love
Under your spell I can't get of
(You got a good grip) What am I to do? I'm caught
(In a grip of you) In a grip of you

Grip
The grip of your love (Girl, you got a good grip)
What am I to do? (Caught in a grip of you)
The grip
I just want you to know that (You got a good grip)
Oh, baby
My heart's been gripped by you
