

It Takes 2

The System

Hello, operator!
Could you try that number one more time?
It seems that I've been disconnected
There must be something wrong with the line
Something wrong with the line

But before I drop another dime
Will you give her a message?
To say that I apologize again
It took so long to realize

That it takes 2 to make a pair and they always share
What is in their heart, when love is there?
I can't do this by myself
It takes 2 (That's me and you)

I could swallow my pride
If that would take these tears from my eyes
I guess, you could say it happened for the best
Forced me to take a good look at myself

I guess, sometimes we do lose sight
How could I let you out of my life?

When it takes 2 to make a pair and they always share
What is in their heart, when love is there?
I can't do this by myself
'Cause it takes 2, yeah, yeah (Me and you)

It takes 2 to make a pair and they always share
What is in their heart, when love is there?
I can't do this by myself
'Cause it takes 2

There's no more heartache
Pieces of our love, put them back in place
There's 2 to make love, 2 make it stay

Sometimes we do lose sight
And turn to darkness all that was light

But it takes 2 to make a pair and they always share
What is in their heart, when love is there?
I can't do this by myself
It takes 2 (That's me and you)

Yeah, yeah, it takes 2 to make a pair
And they always share
What is in their heart, when love is there?
It took 2 to make it start
Love plus me and you (That's me any you)

Yeah, it takes 2 to make a pair
They can feel it in their heart
We knew from the start
Love will see us through (That's me and you)

Yeah, yeah, yeah, it takes 2 to make a pair
You know, love was in their heart
When love is really there
Love will see 'em through (That's me and you)

Yeah, yeah, yeah, it takes 2 to make a pair
They can feel it in their heart
We knew from the start
Love will see us through (That's me and you)

Yeah, yeah, yeah, yeah...
