

# Soul to Soul

## The System

Can't remember when we were beginners  
'Cause the touch of you is still brand new  
I'm just realizing when you're here beside me  
Fantasies come true for me and you

Every minute we put so much in it  
How could this love ever change?  
Oh, baby  
Never have to cry, never have to say goodbye  
In this paradise we've made, oh

'Cause we're soul to soul  
Baby, hold tight, it's all right  
I won't let you go  
Keep it soul to soul  
Baby, all night is all right  
I want you to know

Heart desire, so much passion rising  
Has this dream come true, love and deja vu  
Moonlit places in our love oasis  
Shining bright in every room

Every secret in your heart (Secret in your heart)  
You share with me, we'll dance till dawn  
And then the lovin' starts (Ooh, the lovin' starts)  
Son a seare my isla star  
Morning sun my island star  
Is all the things you are, oh, baby

'Cause we're soul to soul  
Baby, hold tight, it's all right  
I won't let you go  
Keep it soul to soul  
Baby, your love is all right  
I want you to know

Every time I see the dawn  
I know just where I belong  
Every time we touch, I know  
I won't ever let you go

Because we're so...

I want you to know...

'Cause we're soul to soul  
Baby, hold tight, it's all right  
I won't let you go  
Keep it soul to soul  
Baby, your love is all right  
I want you to know

That we're soul to soul  
Baby, hold tight, it's all right  
I won't let you go  
'Cause we're soul to soul

Baby, all night is all right  
I want you to know

That we're soul to soul  
Baby, hold tight, it's all right  
I won't let you go  
Keep it soul to soul  
Baby, all night is all right  
I want you to know

'Cause baby  
I can spend my life  
Holding you this tight  
So won't let it go  
Let your feelings flow, yeah, yeah, yeah  
Girl, with me tonight  
Everything is right  
And I've gotta let you know...
