

Everyman's Forgotten Monday

The Tangent

The crimes of dying nations equimedia

Hustles to raid against the brain

With cameraman refractorious recommendations

on humidity

Some forgotten back water conflict

And after it for the hunting lands

Knives are sharper in a total blackout

(asshole) no coming back

(ref.)

And in the meantime somebody f**ks up grammar

And in the meantime somebody f**ks up vermin

The heavy strapped everyman reporter

Last in the Sunday night jungle

Makes three pages in the observer

Forgot my day

(ref.)

And in the meantime somebody f**ks up your mom

And in the meantime somebody f**ks up your mom

Some forgotten back water conflict

With no air strip for the hunting lands

Knives are sharper when a total blackout

has rolled no coming back

(ref.)

And in the meantime somebody f**ks up burbon

And in the meantime somebody f**ks up Veimar
